INTERVIEW EVALUATION SHEET

Name of the candidate	Ranjith K		**Interview date**	06/08/2025
Project	Ascendion Engineering		**Role**	Angular Engineer
Interview Panel	Suman Dey		**Interview mode**	Online

Must have: EVALUATION OF CONCEPTS (MARKING SCALE: 1 (POOR) – 5 (EXCELLENT))

Topic / Technology	**Comments**	**RALA Rating**
Coding Skills	The candidate demonstrates a good ability to understand and approach logical problems. However, his hands-on coding skills are weak, and he struggles with identifying and resolving issues in code. Additionally, his understanding of JavaScript fundamentals is not up to the mark. Overall, the candidate does not meet the technical expectations required for this role.	2.5/5
Strong programming foundations in React	The candidate has very basic hands-on experience with React and was unable to explain core concepts during the interview. His responses lacked depth and clarity, indicating limited practical exposure. Overall, he does not meet the required proficiency level for this role.	1 /5
TypeScript/ JavaScript	The candidate has only recently started working with TypeScript and has no foundational knowledge of JavaScript. He was unable to answer basic questions related to core JavaScript concepts such as callbacks and event loops. This highlights a significant gap in essential front-end fundamentals. Overall, the	1/5

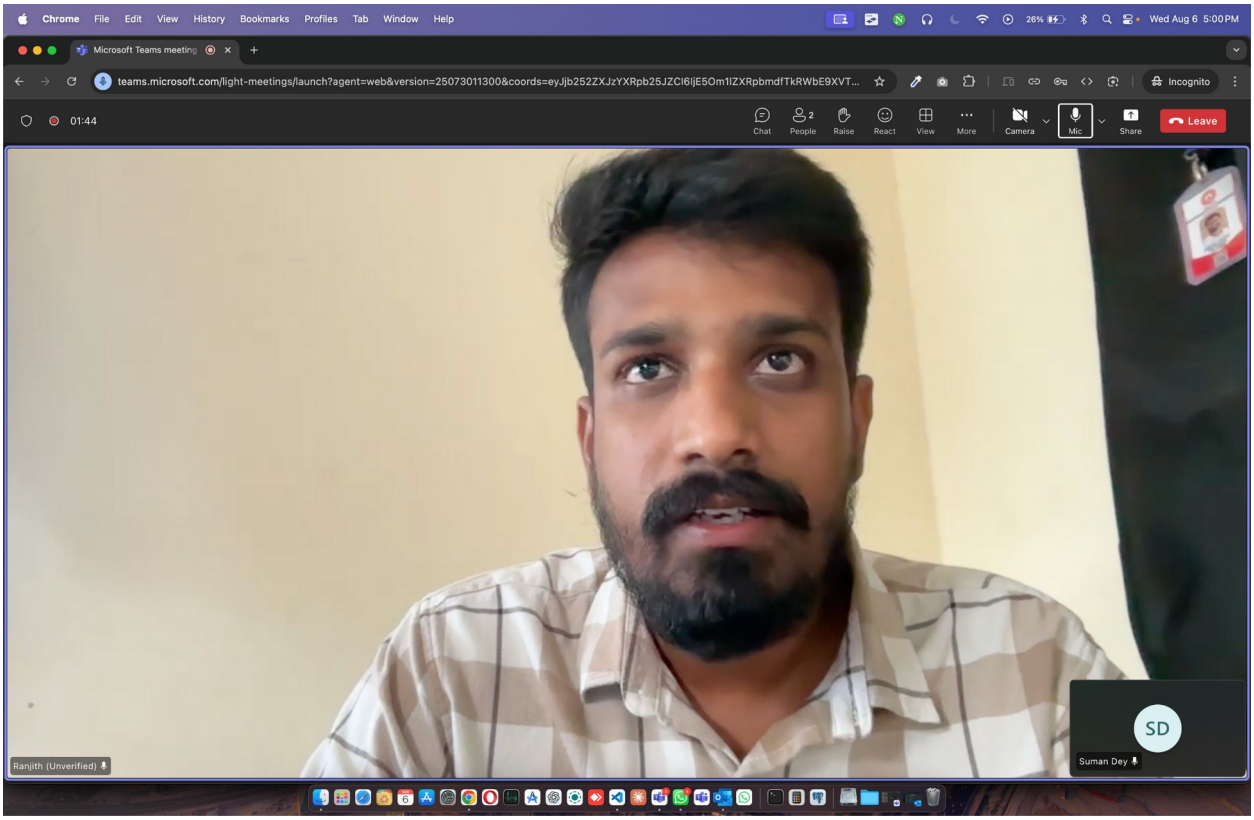
	candidate does not meet the technical requirements for this role.	
Familiarity with HTML, CSS, Java Script	The candidate was unable to answer even basic questions related to HTML and CSS. His responses indicate a very junior level of experience, similar to someone who is just starting out after college. Overall, he does not meet the skill level or experience required for this role.	1/5
understanding RESTful APIs and asynchronous programming.		/5
Communication and Soft Skills		/5

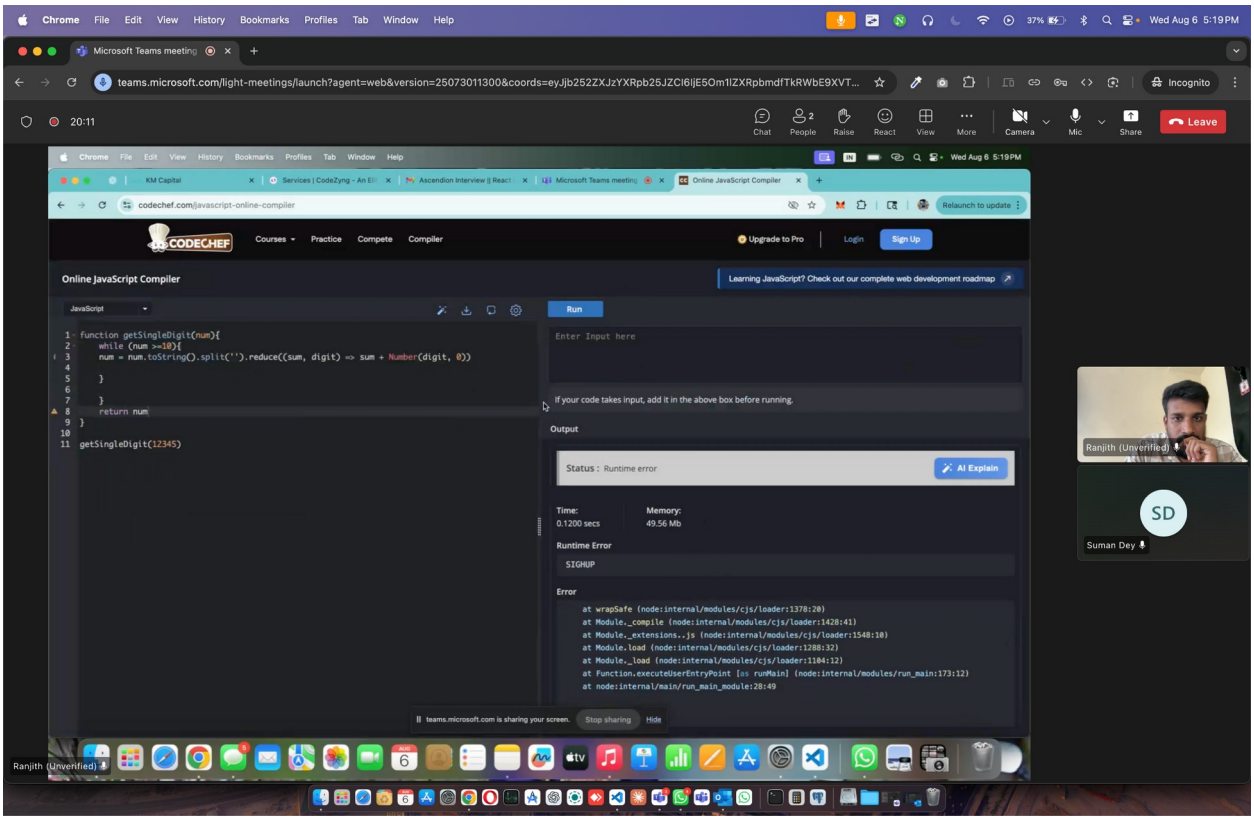
#	Coding Activity Details (Describe the activity)	Comments	Self-Rating	Ascendion Rating
1	Teamwork		/5	/5
2	Communication		/5	/5
3	Working under pressure		/5	/5
4	Ownership		/5	/5

RATING	Rejected
RECOMMENDATION	The candidate demonstrates a basic understanding of logic but lacks the practical coding skills and technical depth required for this role. His experience with React is minimal, and he was unable to explain core concepts during the interview. He has only recently started working with TypeScript and has no foundational knowledge of JavaScript, struggling with even simple topics like callbacks and event loops. Additionally, he could not answer basic

	HTML and CSS questions, indicating a very junior-level skill set, similar to someone just beginning their coding journey. Overall, the candidate does not meet the required proficiency level or experience expected for this position.

Screenshots of the candidate





Candidate takes significant time for the simple error fix in the code
